VIDEO & PHOTOGRAPHY

Everyman Racing would like to provide you with a long-lasting memory of your exhilarating experience with us.
After all it's not every day you get to drive a vast array of supercars,
We offer a top gear style video and photography package which can be imported onto your own USB flash drive to take home and share with your family and friends.

PRESTWOLD CIRCUIT

Situated in the heart of the Midlands, Prestwold Driving centre is in a prime location for our clients. The race track is set within the grounds of Prestwold Hall which is based in Leicestershire and is one of the prestigious stately homes in the UK.

Our purpose built 1.8 mile track boasts long fast straights with high speed corners and most importantly has wide run offs providing a safe exhilarating track for you to enjoy the power of driving our high performance

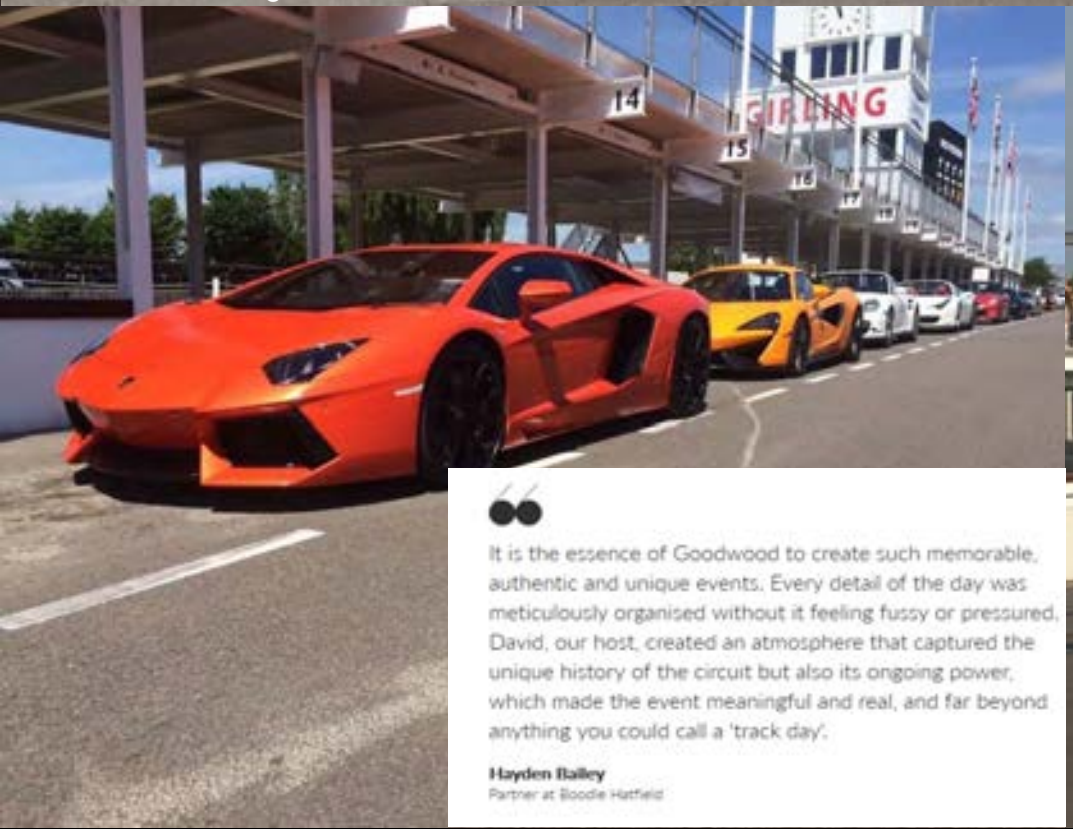

The worlds most famous drivers have raced at Goodwood including Sir Jackie Stewart, Graham Hill and Sir Stirling Moss. The circuit was immaculately restored in 1988 to take it back to what it was in the 1950's. Test your skills on this challenging circuit for a Supercar experience guaranteed to get your adrenaline flowing.

> What a truly excellent couple of days at Goodwood. The staff service and food at the hotel could not have been better and the welcome, instruction and setting for the second day was truly superb too.
>
> **Charlie Turner**
> Editor in Chief, BBC Topgear

> It is the essence of Goodwood to create such memorable, authentic and unique events. Every detail of the day was meticulously organised without it feeling fussy or pressured. David, our host, created an atmosphere that captured the unique history of the circuit but also its ongoing power, which made the event meaningful and real, and far beyond anything you could call a 'track day'.

Dunsfold Aerodrome

Situated near the little village of Cranleigh in Surrey Dunsfold Park is an airfield venue used for Driving Experience and track day events as well as appearing regularly on TV and in movies such as James Bonds Casino Royale.

The layout of the track was designed by Lotus test drivers and is marked out on the runway surface using painted lines and structures such as tyre stacks. There are two configurations of the circuit layout. The figure of eight that is used for the filming of Top Gear however on experience events the outer circuit configuration is used. The layout is designed to give a fun mix of low and high-speed corners as well as a series of straights that will allow you to enjoy a modern day Super Car.
